

## MSSNY HIT SERVICE BUREAU: SERVICES AVAILABLE

The MSSNY HIT Service Bureau will provide two levels of service: Level 1 – Maximizing EHR for Meaningful Use, and Level 2 – EHR Implementation Plus. Each will be based on the current technology in place in the physician office and/or practice. Both will culminate in the achievement of meaningful use attestation by the physician(s) – a necessary condition to qualify for incentive payment.

**Level 1: Maximizing EHR for Meaningful Use:** For eligible professionals and/or practices who have already purchased an EHR product and are considered in the post-implementation phase. The focus is to assess that an EHR is being used in a manner consistent with the required criteria as described in the Medicare and Medicaid Electronic Health Record Incentive Program. The following services will be performed:

- Evaluation of e-current practice workflow to determine if changes are necessary for the achievement of meaningful use;
- Confirmation that appropriate alerts and clinical decision support rules are in place;
- Confirmation that eligible professionals (EPs) can meet the meaningful use core and menu set requirements such as electronic prescribing, test ordering and tracking, use of quality improvement metrics and having the capability to electronically exchange clinical information.

**Level 2: EHR –Implementation Plus:** For physicians and/or practices who have not purchased an EHR. The following services will be performed:

- Practice assessment;
- Assistance with selecting/vetting an EHR;
- Monitoring status of tasks to be performed by vendor and practice staff;
- Assistance with monitoring of system testing and error resolution;
- EHR meaningful use evaluation;
- Workflow documentation and redesign based on selected system;
- Confirmation that appropriate alerts and decision support rules are in place;
- Confirmation that eligible professionals (EPs) can meet the meaningful use core and menu set requirements such as electronic prescribing, test ordering and tracking, using quality improvement metrics and having the capability to electronically exchange clinical information.

### FEES (Based on per physician/clinician\*)

<u>Level of Service</u>	<u>MSSNY Member**</u>	<u>Non-MSSNY Member</u>
Maximizing EHR for Meaningful Use	\$ 5,000.00	\$ 6,500.00
