I am running for the position of **AMA Delegate**

Please type a brief candidate statement.

If re-elected to serve as a MSSNY Delegate to the American Medical Association, I pledge to bring my energy, resilience, thoughtfulness, and strategic mindset to the work we have before us. Amidst myriad changes in the healthcare landscape, including growing numbers of employed physicians, evolving models for health care delivery system, payment reform, and practice transformation, physicians need the advocacy, education, research and affiliation that our medical society provides now more than ever. Our House of Medicine must continue to stand, led by physician leaders who can gain the trust of colleagues and elected officials, demonstrate the compassion and warmth that our patients and communities need, provide stability and steady navigation of the vicissitudes of modern practice, and inspire hope in us all for a brighter and healthier future.
