Measles & Other Vaccine-Preventable Diseases: Nuances of Vaccine Confidence

Live Webinar

Wednesday September 16, 2026 @ 7:30a.m.

Faculty: William Valenti, MD & Craig Katz, MD

Educational Objectives:

- ◆ **Analyze** recent epidemiological trends for measles and other resurging vaccine-preventable diseases
- ◆ **Evaluate** pediatric and adult immunization guidance from New York State Department of Health against current ACIP/CDC guidelines
- ◆ **Examine** the psychological nuances of vaccine confidence, including cognitive biases, risk perception heuristics, and the 5Cs model of vaccination across diverse patient populations
- ◆ **Apply** evidence-based communication frameworks to navigate clinical encounters and strengthen patient/caregiver trust
